

Pass-Through Certificates, Series 200[]-[], CWALT, Inc., by [], as trustee under the Pooling and Servicing Agreement dated as of [], 20[], without recourse," in recordable form, as described in the Pooling and Servicing Agreement,

(4) the original recorded assignment or assignments of the Mortgage together with all interim recorded assignments of the Mortgage or copies thereof, except for any documents not returned from the public recording office, which will be delivered to the [Co-Trustee / Trustee] as soon as the same is available to the Depositor,

(5) the original or copies of each assumption, modification, written assurance or substitution agreement, if any, and

(6) the original or duplicate original lender's title policy and all riders thereto or, in the event the original title policy has not been received from the insurer, the original or duplicate original lender's title policy and all riders thereto will be delivered within one year of the Closing Date.

Notwithstanding the foregoing, in lieu of providing the documents set forth in clauses (3) and (4) above, the Depositor may at its discretion provide evidence that the related Mortgage is held through the MERS(R) System. In addition, the Mortgages for some or all of the Mortgage Loans in the issuing entity that are not already held through the MERS(R) System may, at the discretion of the Master Servicer, in the future be held through the MERS(R) System. For any Mortgage held through the MERS(R) System, the Mortgage is recorded in the name of Mortgage Electronic Registration Systems, Inc., or MERS(R), as nominee for the owner of the Mortgage Loan, and subsequent assignments of the Mortgage were, or in the future may be, at the discretion of the Master Servicer, registered electronically through the MERS(R) System. For each of these Mortgage Loans, MERS(R) serves as mortgagee of record on the Mortgage solely as a nominee in an administrative capacity on behalf of the Trustee, and does not have any interest in the Mortgage Loan.

S-48

<PAGE>

Pursuant to the Pooling and Servicing Agreement, the Depositor will be required to deliver (or cause delivery of) the Trustee's Mortgage Files:

(A) not later than the Closing Date, with respect to at least 50% of the Initial Mortgage Loans, and not later than the relevant Subsequent Transfer Date, with respect to at least 10% of the Subsequent Mortgage Loans conveyed on any related Subsequent Transfer Date,

(B) not later than twenty days after the Closing Date, with respect to at least an additional 40% of the Initial Mortgage Loans, and not later than twenty days after the relevant Subsequent Transfer Date with respect to the remaining Subsequent Mortgage Loans conveyed on any related Subsequent Transfer Date, and

(C) not later than thirty days after the Closing Date, with respect to the remaining Initial Mortgage Loans.

Assignments of the Mortgage Loans to the Trustee (or its nominee)

will be recorded in the appropriate public office for real property records, except in states (such as California) as to which an opinion of counsel is delivered to the effect that the recording is not required to protect the Trustee's interests in the Mortgage Loan against the claim of any subsequent transferee or any successor to or creditor of the Depositor or the applicable Seller. As to any Mortgage Loan, the recording requirement exception described in the preceding sentence is applicable only so long as the related Trustee's Mortgage File is maintained in the possession of the [Co-Trustee / Trustee] in one of the states to which the exception applies. In the event an assignment is delivered to the Trustee in blank and the related Trustee's Mortgage File is released by the Trustee pursuant to applicable provisions of the Pooling and Servicing Agreement, the Trustee will complete the assignment as provided in subparagraph (3) above prior to the release. In the event recording the assignment of the Mortgage Loan is required to protect the interest of the Trustee in the Mortgage Loans, the Master Servicer is required to cause each previously unrecorded assignment to be submitted for recording.

The [Co-Trustee / Trustee] will review the Initial Mortgage Loan documents on or prior to the Closing Date (or promptly after the [Co-Trustee / Trustee]'s receipt of any document permitted to be delivered after the Closing Date), and the Subsequent Mortgage Loan documents promptly after the [Co-Trustee / Trustee]'s receipt thereof on or after the related Subsequent Transfer Date as described above, and the [Co-Trustee / Trustee] will hold the Mortgage Loan documents in trust for the benefit of the holders of the Certificates in accordance with its customary procedures, including storing the documents in fire-resistant facilities. After review of the Mortgage Loan documents, if any document is found to be missing or defective in any material respect, the Trustee [or the Co-Trustee] is required to notify the Master Servicer, the [Class AF-5B] Insurer and Countrywide Home Loans in writing. If [Countrywide Home Loans] cannot or does not cure the omission or defect within 90 days of its receipt of notice from the Trustee [or the Co-Trustee], [Countrywide Home Loans] is required to repurchase the related Mortgage Loan from the issuing entity at a price (the "Purchase Price") equal to the sum of:

- (i) 100% of the unpaid principal balance (or, if the purchase or repurchase, as the case may be, is effected by the Master Servicer, the Stated Principal Balance) of the Mortgage Loan as of the date of the purchase,
- (ii) accrued interest thereon at the applicable Mortgage Rate (or, if the purchase or repurchase, as the case may be, is effected by the Master Servicer, at the Net Mortgage Rate) from (a) the date through which interest was last paid by the mortgagor (or, if the purchase or repurchase, as the case may be, is effected by the Master Servicer, the date through which interest was last advanced by, and not reimbursed to, the Master Servicer) to (b) the Due Date in the month in which the Purchase Price is to be distributed to certificateholders, and
- (iii) any costs, expenses and damages incurred by the issuing entity resulting from any violation of any predatory or abusive lending law in connection with the Mortgage Loan.

S-49

<PAGE>

Rather than repurchase the Mortgage Loan as provided above, [Countrywide Home Loans] may remove the Mortgage Loan (a "Deleted Mortgage Loan") from the issuing entity and substitute in its place another Mortgage Loan of like kind (a "Replacement Mortgage Loan"); however, a substitution is

only permitted within two years after the Closing Date, and may not be made unless an opinion of counsel is provided to the effect that the substitution would not disqualify any REMIC election made by the Trustee or result in a prohibited transaction tax under the Code. Any Replacement Mortgage Loan generally will, on the date of substitution, among other characteristics set forth in the Pooling and Servicing Agreement:

(1) have a Stated Principal Balance, after deduction of the principal portion of the Scheduled Payment due in the month of substitution, not in excess of, and not less than 90% of, the Stated Principal Balance of the Deleted Mortgage Loan (the amount of any shortfall to be forwarded by [Countrywide Home Loans] to the Master Servicer and deposited by the Master Servicer in the Certificate Account not later than the succeeding Determination Date and held for distribution to the holders of the Certificates on the related Distribution Date),

(2) if the Deleted Mortgage Loan that is being replaced is an Adjustable Rate Mortgage Loan, have a Maximum Mortgage Rate not more than 1% per annum higher or lower than the Maximum Mortgage Rate of the Deleted Mortgage Loan,

(3) if the Deleted Mortgage Loan that is being replaced is an Adjustable Rate Mortgage Loan, have a minimum Mortgage Rate specified in its related Mortgage Note (the "Minimum Mortgage Rate") not more than 1% per annum higher or lower than the Minimum Mortgage Rate of the Deleted Mortgage Loan,

(4) if the Deleted Mortgage Loan that is being replaced is an Adjustable Rate Mortgage Loan, have the same Mortgage Index, reset period, payment cap and recast provisions, as applicable, as and a Gross Margin not more than 1% per annum higher or lower than that of the Deleted Mortgage Loan,

(5) have a Mortgage Rate no lower than and not more than 1% higher than that of the Deleted Mortgage Loan,

(6) have a Loan-to-Value Ratio no higher than that of the Deleted Mortgage Loan,

(7) have a remaining term to maturity not greater than (and not more than one year less than) that of the Deleted Mortgage Loan, and

(8) comply with all of the representations and warranties set forth in the Pooling and Servicing Agreement as of the date of substitution.

This cure, repurchase or substitution obligation constitutes the sole remedy available to the certificateholders, the Trustee or the Depositor for omission of, or a material defect in, a Mortgage Loan document.

[Pre-Funding]

On the Closing Date, the Depositor may elect to deposit an amount of up to 25% of the initial Certificate Principal Balance of the Offered Certificates (the "Pre-Funded Amount") in a pre-funding account (the "Pre-Funding Account") established and maintained by the Trustee on behalf of the certificateholders. The Pre-Funded Amount will be allocated between the Loan Groups so that the amount allocated to any Loan Group will not exceed 25% of the initial Certificate Principal Balance of the Certificates related to the Loan Group. Any investment income earned from amounts in the Pre-Funding

Account, if any, will be paid to the Countrywide Home Loans, and will not be available for payments on the Certificates. If the Depositor elects to deposit the Pre-Funded Amount in the Pre-Funding Account, during the period from the Closing Date until the earlier of (x) the date the amount in the Pre-Funding Account is less than \$[] and (y) [] 200[(the "Funding Period"), the Depositor will be expected to purchase additional mortgage loans originated or purchased by a Seller (the "Subsequent Mortgage Loans") from a Seller and sell the Subsequent Mortgage Loans to the issuing entity as described below. The

S-50

<PAGE>

purchase price for each Subsequent Mortgage Loan will equal the Stated Principal Balance of the Subsequent Mortgage Loan as of the later of (x) the first day of the month of the related Subsequent Transfer Date and (y) the origination date of that Subsequent Mortgage Loan (the related "Subsequent Cut-off Date") and will be paid from the Pre-Funding Account. Accordingly, the purchase of Subsequent Mortgage Loans will decrease the amount on deposit in the Pre-Funding Account and increase the Stated Principal Balance of the Mortgage Pool.

Pursuant to the Pooling and Servicing Agreement and a Subsequent Transfer Agreement to be executed by the applicable Seller, the Depositor and the Trustee, the conveyance of Subsequent Mortgage Loans may be made on any Business Day during the Funding Period (a "Subsequent Transfer Date"), subject to the fulfillment of certain conditions in the Pooling and Servicing Agreement, including that:

- o the Subsequent Mortgage Loans conveyed on the Subsequent Transfer Date satisfy the same representations and warranties in the Pooling and Servicing Agreement applicable to all Mortgage Loans,
- o the Subsequent Mortgage Loans conveyed on the Subsequent Transfer Date were selected in a manner reasonably believed not to be adverse to the interests of the certificateholders,
- o the Trustee receives an opinion of counsel with respect to the validity of the conveyance of the Subsequent Mortgage Loans conveyed on the Subsequent Transfer Date,
- o the Trustee receives an opinion of counsel to the effect that the conveyance of the Subsequent Mortgage Loans conveyed on the Subsequent Transfer Date will not (i) result in the imposition of the tax on "prohibited transactions" on the issuing entity or contributions after the Startup Date, as defined in Sections 860F(a)(2) and 860G(d) of the Code, respectively, or (ii) cause the issuing entity to fail to qualify as a REMIC at any time that any Certificates are outstanding,
- o the Trustee receives opinions of counsel to the effect that the conveyance of the Subsequent Mortgage Loans conveyed on the Subsequent Transfer Date from the applicable Seller to the Depositor and the simultaneous conveyance of the Subsequent Mortgage Loans from the Depositor to the issuing entity will be characterized as true sales and not loans secured by the Subsequent Mortgage Loans,
- o the conveyance of the Subsequent Mortgage Loans on the Subsequent Transfer Date will not result in a reduction or withdrawal of any

ratings assigned to the Certificates,

- o no Subsequent Mortgage Loan conveyed on the Subsequent Transfer Date was 30 or more days delinquent, and
- o following the conveyance of the Subsequent Mortgage Loans on the Subsequent Transfer Date to the issuing entity, the characteristics of the Mortgage Loans in each Loan Group will not vary by more than the permitted variance specified below; provided that for the purpose of making the calculations, the characteristics for any Initial Mortgage Loan will be taken as of the Initial Cut-off Date and the characteristics for any Subsequent Mortgage Loan will be taken as of the Subsequent Cut-off Date:

Within thirty days after each Subsequent Transfer Date, the Depositor is required to deliver to the Trustee a letter of a nationally recognized firm of independent public accountants stating whether or not the Subsequent Mortgage Loans conveyed on the related Subsequent Transfer Date conform to the characteristics described in the last two bullet points set forth above. Other than the delivery of that letter, no other party will independently verify satisfaction of the conditions set forth above with respect to a transfer of Subsequent Mortgage Loans.]

Underwriting Standards

General

[Below is an example of the disclosure to be provided if Countrywide Home Loans, Inc. is the originator of the mortgage loans. Similar disclosure will be provided with respect to any other originator of more than 20% of the mortgage loans]

[All] of the Mortgage Loans have been originated or acquired by [Countrywide Home Loans, Inc. ("Countrywide Home Loans")] in accordance with its credit, appraisal and underwriting standards. [Countrywide Home Loans] has been originating mortgage loans since 1969. [Countrywide Home Loans'] underwriting standards are applied in accordance with applicable federal and state laws and regulations. Except as otherwise provided in this prospectus supplement, the underwriting procedures are consistent with those identified under "Mortgage Loan Program -- Underwriting Process" in the prospectus.

As part of its evaluation of potential borrowers, Countrywide Home Loans generally requires a description of income. If required by its underwriting guidelines, Countrywide Home Loans obtains employment verification providing current and historical income information and/or a telephonic employment confirmation. Such employment verification may be obtained, either through analysis of the prospective borrower's recent pay stub and/or W-2 forms for the most recent two years, relevant portions of the most recent two years' tax returns, or from the prospective borrower's employer, wherein the employer reports the length of employment and current salary with that organization. Self-employed prospective borrowers generally are required to submit relevant portions of their federal tax returns for the past two years.

In assessing a prospective borrower's creditworthiness, Countrywide Home Loans may use FICO Credit Scores. "FICO Credit Scores" are statistical credit scores designed to assess a borrower's creditworthiness and likelihood to default on a consumer obligation over a two-year period based on a borrower's credit history. FICO Credit Scores were not developed to predict the likelihood of default on mortgage loans and, accordingly, may not be indicative of the ability of a borrower to repay its Mortgage Loan. FICO Credit Scores range from approximately 250 to approximately 900, with higher scores indicating an individual with a more favorable credit history compared to an individual with a lower score. Under Countrywide Home Loans' underwriting guidelines, borrowers possessing higher FICO Credit Scores, which indicate a more favorable credit history and who give Countrywide

<PAGE>

Home Loans the right to obtain the tax returns they filed for the preceding two years, may be eligible for Countrywide Home Loans' processing program (the "Preferred Processing Program"). As of the cut-off date, [none] of the Mortgage Loans have been underwritten pursuant to Countrywide Home Loans' Preferred Processing Program. Countrywide Home Loans may waive some documentation requirements for Mortgage Loans originated under the Preferred Processing Program.

Periodically the data used by Countrywide Home Loans to complete the underwriting analysis may be obtained by a third party, particularly for mortgage loans originated through a loan correspondent or mortgage broker. In those instances, the initial determination as to whether a mortgage loan complies with Countrywide Home Loans' underwriting guidelines may be made by an independent company hired to perform underwriting services on behalf of Countrywide Home Loans, the loan correspondent or mortgage broker. In addition, Countrywide Home Loans may acquire mortgage loans from approved correspondent lenders under a program pursuant to which Countrywide Home Loans delegates to the correspondent the obligation to underwrite the mortgage loans to Countrywide Home Loans' standards. Under these circumstances, the underwriting of a mortgage loan may not have been reviewed by Countrywide Home Loans before acquisition of the mortgage loan and the correspondent represents that Countrywide Home Loans' underwriting standards have been met. After purchasing mortgage loans under those circumstances, Countrywide Home Loans conducts a quality control review of a sample of the mortgage loans. The number of loans reviewed in the quality control process varies based on a variety of factors, including Countrywide Home Loans' prior experience with the correspondent lender and the results of the quality control review process itself.

Countrywide Home Loans' underwriting standards are applied by or on behalf of Countrywide Home Loans to evaluate the prospective borrower's credit standing and repayment ability and the value and adequacy of the mortgaged property as collateral. Under those standards, a prospective borrower must generally demonstrate that the ratio of the borrower's monthly housing expenses (including principal and interest on the proposed mortgage loan and, as applicable, the related monthly portion of property taxes, hazard insurance and mortgage insurance) to the borrower's monthly gross income and the ratio of total monthly debt to the monthly gross income (the "debt-to-income" ratios) are within acceptable limits. If the prospective borrower has applied for an interest-only Six-Month LIBOR Loan, the interest component of the monthly mortgage expense is calculated based upon the initial interest rate plus 2%. If the prospective borrower has applied for a 3/1 Mortgage Loan or 3/27 Mortgage Loan and the Loan-to-Value Ratio is less than or equal to 75%, the interest component of the monthly mortgage expense is calculated based on the initial loan interest rate; if the Loan-to-Value Ratio exceeds 75%, the interest component of the monthly mortgage expense calculation is based on the initial loan interest rate plus 2%. If the prospective borrower has applied for a 5/1 Mortgage Loan, a 5/25 Mortgage Loan, a 7/1 Mortgage Loan, a 7/23 Mortgage Loan, a 10/1 Mortgage Loan or a 10/20 Mortgage Loan, the interest component of the monthly mortgage expense is calculated based on the initial loan interest rate. If the prospective borrower has applied for a Negative Amortization Loan, the interest component of the monthly housing expense calculation is based upon the greater of 4.25% and the fully indexed mortgage note rate at the time of loan application. The maximum acceptable debt-to-income ratio, which is determined on a loan-by-loan basis varies depending on a number of underwriting criteria, including the Loan-to-Value Ratio, loan purpose, loan amount and credit history of the borrower. In addition to meeting the debt-to-income ratio guidelines, each prospective borrower is required to have sufficient cash resources to pay the down payment and closing costs. Exceptions to Countrywide Home Loans' underwriting

guidelines may be made if compensating factors are demonstrated by a prospective borrower. Additionally, Countrywide Home Loans does permit its adjustable rate mortgage loans, hybrid adjustable rate mortgage loans and negative amortization mortgage loans to be assumed by a purchaser of the related mortgaged property, so long as the mortgage loan is in its adjustable rate period (except for a 3/1 Mortgage Loan, which may be assumed during the fixed rate period) and the related purchaser meets Countrywide Home Loans' underwriting standards that are then in effect.

Countrywide Home Loans may provide secondary financing to a borrower contemporaneously with the origination of a mortgage loan, subject to the following limitations: the Loan-to-Value Ratio of the senior (i.e., first) lien may not exceed 80% and the combined Loan-to-Value Ratio may not exceed 100%. Countrywide Home Loans' underwriting guidelines do not prohibit or otherwise restrict a borrower from obtaining secondary financing from lenders other than Countrywide Home Loans, whether at origination of the mortgage loan or thereafter.

The nature of the information that a borrower is required to disclose and whether the information is verified depends, in part, on the documentation program used in the origination process. In general under the Full

S-53

<PAGE>

Documentation Loan Program (the "Full Documentation Program"), each prospective borrower is required to complete an application which includes information with respect to the applicant's assets, liabilities, income, credit history, employment history and other personal information. Self-employed individuals are generally required to submit their two most recent federal income tax returns. Under the Full Documentation Program, the underwriter verifies the information contained in the application relating to employment, income, assets and mortgages.

A prospective borrower may be eligible for a loan approval process that limits or eliminates Countrywide Home Loans' standard disclosure or verification requirements or both. Countrywide Home Loans offers the following documentation programs as alternatives to its Full Documentation Program: an Alternative Documentation Loan Program (the "Alternative Documentation Program"), a Reduced Documentation Loan Program (the "Reduced Documentation Program"), a CLUES Plus Documentation Loan Program (the "CLUES Plus Documentation Program"), a No Income/No Asset Documentation Loan Program (the "No Income/No Asset Documentation Program"), a Stated Income/Stated Asset Documentation Loan Program (the "Stated Income/Stated Asset Documentation Program") and a Streamlined Documentation Loan Program (the "Streamlined Documentation Program").

For all mortgage loans originated or acquired by Countrywide Home Loans, Countrywide Home Loans obtains a credit report relating to the applicant from a credit reporting company. The credit report typically contains information relating to such matters as credit history with local and national merchants and lenders, installment debt payments and any record of defaults, bankruptcy, dispossession, suits or judgments. All adverse information in the credit report is required to be explained by the prospective borrower to the satisfaction of the lending officer.

Countrywide Home Loans obtains appraisals from independent appraisers or appraisal services for properties that are to secure mortgage loans. The appraisers inspect and appraise the proposed mortgaged property and verify that the property is in acceptable condition. Following each appraisal, the

appraiser prepares a report which includes a market data analysis based on recent sales of comparable homes in the area and, when deemed appropriate, a replacement cost analysis based on the current cost of constructing a similar home. All appraisals are required to conform to Fannie Mae or Freddie Mac appraisal standards then in effect.

[Countrywide Home Loans requires title insurance on all of its mortgage loans secured by first liens on real property. Countrywide Home Loans also requires that fire and extended coverage casualty insurance be maintained on the mortgaged property in an amount at least equal to the principal balance of the related single-family mortgage loan or the replacement cost of the mortgaged property, whichever is less.]

In addition to Countrywide Home Loans' standard underwriting guidelines (the "Standard Underwriting Guidelines"), which are consistent in many respects with the guidelines applied to mortgage loans purchased by Fannie Mae and Freddie Mac, Countrywide Home Loans uses underwriting guidelines featuring expanded criteria (the "Expanded Underwriting Guidelines"). The Standard Underwriting Guidelines and the Expanded Underwriting Guidelines are described further under the next two headings.

Standard Underwriting Guidelines

Countrywide Home Loans' Standard Underwriting Guidelines for mortgage loans with non-conforming original principal balances generally allow Loan-to-Value Ratios at origination of up to 95% for purchase money or rate and term refinance mortgage loans with original principal balances of up to \$400,000, up to 90% for mortgage loans with original principal balances of up to \$650,000, up to 75% for mortgage loans with original principal balances of up to \$1,000,000, up to 65% for mortgage loans with original principal balances of up to \$1,500,000, and up to 60% for mortgage loans with original principal balances of up to \$2,000,000.

For cash-out refinance mortgage loans, Countrywide Home Loans' Standard Underwriting Guidelines for mortgage loans with non-conforming original principal balances generally allow Loan-to-Value Ratios at origination of up to 75% and original principal balances ranging up to \$650,000. The maximum "cash-out" amount permitted is \$200,000 and is based in part on the original Loan-to-Value Ratio of the related mortgage loan. As used in this prospectus supplement, a refinance mortgage loan is classified as a cash-out refinance mortgage loan by Countrywide Home Loans if the borrower retains an amount greater than the lesser of 2% of the entire amount of the proceeds from the refinancing of the existing loan or \$2,000.

S-54

<PAGE>

Countrywide Home Loans' Standard Underwriting Guidelines for conforming balance mortgage loans generally allow Loan-to-Value Ratios at origination on owner occupied properties of up to 95% on 1 unit properties with principal balances up to \$417,000 (\$625,500 in Alaska and Hawaii) and 2 unit properties with principal balances up to \$533,850 (\$800,775 in Alaska and Hawaii) and up to 80% on 3 unit properties with principal balances of up to \$645,300 (\$967,950 in Alaska and Hawaii) and 4 unit properties with principal balances of up to \$801,950 (\$1,202,925 in Alaska and Hawaii). On second homes, Countrywide Home Loans' Standard Underwriting Guidelines for conforming balance mortgage loans generally allow Loan-to-Value Ratios at origination of up to 95% on 1 unit properties with principal balances up to \$417,000

(\$625,500 in Alaska and Hawaii). Countrywide Home Loans' Standard Underwriting Guidelines for conforming balance mortgage loans generally allow Loan-to-Value Ratios at origination on investment properties of up to 90% on 1 unit properties with principal balances up to \$417,000 (\$625,500 in Alaska and Hawaii) and 2 unit properties with principal balances up to \$533,850 (\$800,775 in Alaska and Hawaii) and up to 75% on 3 unit properties with principal balances of up to \$645,300 (\$967,950 in Alaska and Hawaii) and 4 unit properties with principal balances of up to \$801,950 (\$1,202,925 in Alaska and Hawaii).

Under its Standard Underwriting Guidelines, Countrywide Home Loans generally permits a debt-to-income ratio based on the borrower's monthly housing expenses of up to 33% and a debt-to-income ratio based on the borrower's total monthly debt of up to 38%.

In connection with the Standard Underwriting Guidelines, Countrywide Home Loans originates or acquires mortgage loans under the Full Documentation Program, the Alternative Documentation Program, the Reduced Documentation Program, the CLUES Plus Documentation Program or the Streamlined Documentation Program.

The Alternative Documentation Program permits a borrower to provide W-2 forms instead of tax returns covering the most recent two years, permits bank statements in lieu of verification of deposits and permits alternative methods of employment verification.

Under the Reduced Documentation Program, some underwriting documentation concerning income, employment and asset verification is waived. Countrywide Home Loans obtains from a prospective borrower either a verification of deposit or bank statements for the two-month period immediately before the date of the mortgage loan application or verbal verification of employment. Since information relating to a prospective borrower's income and employment is not verified, the borrower's debt-to-income ratios are calculated based on the information provided by the borrower in the mortgage loan application. The maximum Loan-to-Value Ratio, including secondary financing, ranges up to 75%.

The CLUES Plus Documentation Program permits the verification of employment by alternative means, if necessary, including verbal verification of employment or reviewing paycheck stubs covering the pay period immediately prior to the date of the mortgage loan application. To verify the borrower's assets and the sufficiency of the borrower's funds for closing, Countrywide Home Loans obtains deposit or bank account statements from each prospective borrower for the month immediately prior to the date of the mortgage loan application. Under the CLUES Plus Documentation Program, the maximum Loan-to-Value Ratio is 75% and property values may be based on appraisals comprising only interior and exterior inspections. Cash-out refinances and investor properties are not permitted under the CLUES Plus Documentation Program.

The Streamlined Documentation Program is available for borrowers who are refinancing an existing mortgage loan that was originated or acquired by Countrywide Home Loans provided that, among other things, the mortgage loan has not been more than 30 days delinquent in payment during the previous twelve-month period. Under the Streamlined Documentation Program, appraisals are obtained only if the loan amount of the loan being refinanced had a Loan-to-Value Ratio at the time of origination in excess of 80% or if the loan amount of the new loan being originated is greater than \$650,000. In addition, under the Streamlined Documentation Program, a credit report is obtained but only a limited credit review is conducted, no income or asset verification is required, and telephonic verification of employment is permitted. The maximum Loan-to-Value Ratio under the Streamlined Documentation Program ranges up to

95%.

As of the cut-off date, [all] of the Mortgage Loans have been underwritten pursuant to Countrywide Home Loans' Standard Underwriting Guidelines.

S-55

<PAGE>

Expanded Underwriting Guidelines

Mortgage loans which are underwritten pursuant to the Expanded Underwriting Guidelines may have higher Loan-to-Value Ratios, higher loan amounts and different documentation requirements than those associated with the Standard Underwriting Guidelines. The Expanded Underwriting Guidelines also permit higher debt-to-income ratios than mortgage loans underwritten pursuant to the Standard Underwriting Guidelines.

Countrywide Home Loans' Expanded Underwriting Guidelines for mortgage loans with non-conforming original principal balances generally allow Loan-to-Value Ratios at origination of up to 95% for purchase money or rate and term refinance mortgage loans with original principal balances of up to \$400,000, up to 90% for mortgage loans with original principal balances of up to \$650,000, up to 80% for mortgage loans with original principal balances of up to \$1,000,000, up to 75% for mortgage loans with original principal balances of up to \$1,500,000 and up to 70% for mortgage loans with original principal balances of up to \$3,000,000. Under certain circumstances, however, Countrywide Home Loans' Expanded Underwriting Guidelines allow for Loan-to-Value Ratios of up to 100% for purchase money mortgage loans with original principal balances of up to \$375,000.

For cash-out refinance mortgage loans, Countrywide Home Loans' Expanded Underwriting Guidelines for mortgage loans with non-conforming original principal balances generally allow Loan-to-Value Ratios at origination of up to 90% and original principal balances ranging up to \$1,500,000. The maximum "cash-out" amount permitted is \$400,000 and is based in part on the original Loan-to-Value Ratio of the related mortgage loan.

Countrywide Home Loans' Expanded Underwriting Guidelines for conforming balance mortgage loans generally allow Loan-to-Value Ratios at origination on owner occupied properties of up to 100% on 1 unit properties with principal balances up to \$417,000 (\$625,500 in Alaska and Hawaii) and 2 unit properties with principal balances up to \$533,850 (\$800,775 in Alaska and Hawaii) and up to 85% on 3 unit properties with principal balances of up to \$645,300 (\$967,950 in Alaska and Hawaii) and 4 unit properties with principal balances of up to \$801,950 (\$1,202,925 in Alaska and Hawaii). On second homes, Countrywide Home Loans' Expanded Underwriting Guidelines for conforming balance mortgage loans generally allow Loan-to-Value Ratios at origination of up to 95% on 1 unit properties with principal balances up to \$417,000 (\$625,500 in Alaska and Hawaii). Countrywide Home Loans' Expanded Underwriting Guidelines for conforming balance mortgage loans generally allow Loan-to-Value Ratios at origination on investment properties of up to 90% on 1 unit properties with principal balances up to \$417,000 (\$625,500 in Alaska and Hawaii) and 2 unit properties with principal balances up to \$533,850 (\$800,775 in Alaska and Hawaii) and up to 85% on 3 unit properties with principal balances of up to \$645,300 (\$967,950 in Alaska and Hawaii) and 4 unit properties with principal balances of up to \$801,950 (\$1,202,925 in Alaska and Hawaii).

Under its Expanded Underwriting Guidelines, Countrywide Home Loans generally permits a debt-to-income ratio based on the borrower's monthly housing expenses of up to 36% and a debt-to-income ratio based on the borrower's total monthly debt of up to 40%; provided, however, that if the Loan-to-Value Ratio exceeds 80%, the maximum permitted debt-to-income ratios are 33% and 38%, respectively.

In connection with the Expanded Underwriting Guidelines, Countrywide Home Loans originates or acquires mortgage loans under the Full Documentation Program, the Alternative Documentation Program, the Reduced Documentation Loan Program, the No Income/No Asset Documentation Program and the Stated Income/Stated Asset Documentation Program. Neither the No Income/No Asset Documentation Program nor the Stated Income/Stated Asset Documentation Program is available under the Standard Underwriting Guidelines.

The same documentation and verification requirements apply to mortgage loans documented under the Alternative Documentation Program regardless of whether the loan has been underwritten under the Expanded Underwriting Guidelines or the Standard Underwriting Guidelines. However, under the Alternative Documentation Program, mortgage loans that have been underwritten pursuant to the Expanded Underwriting Guidelines may have higher loan balances and Loan-to-Value Ratios than those permitted under the Standard Underwriting Guidelines.

Similarly, the same documentation and verification requirements apply to mortgage loans documented under the Reduced Documentation Program regardless of whether the loan has been underwritten under the Expanded Underwriting Guidelines or the Standard Underwriting Guidelines. However, under the Reduced

S-56

<PAGE>

Documentation Program, higher loan balances and Loan-to-Value Ratios are permitted for mortgage loans underwritten pursuant to the Expanded Underwriting Guidelines than those permitted under the Standard Underwriting Guidelines. The maximum Loan-to-Value Ratio, including secondary financing, ranges up to 90%. The borrower is not required to disclose any income information for some mortgage loans originated under the Reduced Documentation Program, and accordingly debt-to-income ratios are not calculated or included in the underwriting analysis. The maximum Loan-to-Value Ratio, including secondary financing, for those mortgage loans ranges up to 85%.

Under the No Income/No Asset Documentation Program, no documentation relating to a prospective borrower's income, employment or assets is required and therefore debt-to-income ratios are not calculated or included in the underwriting analysis, or if the documentation or calculations are included in a mortgage loan file, they are not taken into account for purposes of the underwriting analysis. This program is limited to borrowers with excellent credit histories. Under the No Income/No Asset Documentation Program, the maximum Loan-to-Value Ratio, including secondary financing, ranges up to 95%. Mortgage loans originated under the No Income/No Asset Documentation Program are generally eligible for sale to Fannie Mae or Freddie Mac.

As of the cut-off date, [none] of the Mortgage Loans have been originated by Countrywide Home Loans under the No Income/No Asset Documentation Program.

Under the Stated Income/Stated Asset Documentation Program, the mortgage loan application is reviewed to determine that the stated income is

reasonable for the borrower's employment and that the stated assets are consistent with the borrower's income. The Stated Income/Stated Asset Documentation Program permits maximum Loan-to-Value Ratios up to 90%. Mortgage loans originated under the Stated Income/Stated Asset Documentation Program are generally eligible for sale to Fannie Mae or Freddie Mac.

As of the cut-off date, approximately []% of the Mortgage Loans, by aggregate stated principal balance of the Mortgage Loans as of the cut-off date, have been originated by Countrywide Home Loans under the Stated Income/Stated Asset Program.

SERVICING OF THE MORTGAGE LOANS

General

[Countrywide Home Loans Servicing LP] ("Countrywide Servicing" or the "Master Servicer") will act as Master Servicer and will service the Mortgage Loans in accordance with the terms set forth in the Pooling and Servicing Agreement. [It is expected that on the Closing Date the Master Servicer will be the only entity servicing the Mortgage Loans. Additional disclosure complying with the requirements of Item 1108 of Regulation AB will be provided in this section for any servicer of 10% or more of the mortgage loans.] The Master Servicer has agreed to service and administer the Mortgage Loans in accordance with customary and usual standards of practice of prudent mortgage loan lenders. The Master Servicer has also agreed to represent and protect the interest of the Trustee in the Mortgage Loans in the same manner as it currently protects its own interest in mortgage loans in its own portfolio in any claim, proceeding or litigation regarding a Mortgage Loan. The Master Servicer is permitted to make a modification, waiver or amendment of a Mortgage Loan so long as the modification, waiver or amendment would comply with the general servicing standard described above, not cause any REMIC to fail to qualify as a REMIC, not result in the imposition of certain taxes and not extend the due date for a payment due on the related Mortgage Note for a period greater than [180] days. A modification, waiver or amendment may initially result in a reduction in the payments made under a Mortgage Loan, but it is expected that a modification, waiver or amendment will increase the payments made under the Mortgage Loan over the life of the Mortgage Loan.

The Master Servicer may perform any of its obligations under the Pooling and Servicing Agreement through one or more subservicers. Notwithstanding any subservicing arrangement, the Master Servicer will remain liable for its servicing duties and obligations under the Pooling and Servicing Agreement as if the Master Servicer alone were servicing the Mortgage Loans.

The Master Servicer

The principal executive offices of Countrywide Servicing are located at 7105 Corporate Drive, Plano, Texas 75024. Countrywide Servicing is a Texas limited partnership directly owned by Countrywide GP, Inc. and Countrywide LP, Inc., each a Nevada corporation and a direct wholly owned subsidiary of Countrywide Home Loans. Countrywide GP, Inc. owns a 0.1% interest in Countrywide Servicing and is the general partner. Countrywide LP, Inc. owns a 99.9% interest in Countrywide Servicing and is a limited partner.

Countrywide Home Loans established Countrywide Servicing in February 2000 to service mortgage loans originated by Countrywide Home Loans that would otherwise have been serviced by Countrywide Home Loans. In January and February, 2001, Countrywide Home Loans transferred to Countrywide Servicing all of its rights and obligations relating to mortgage loans serviced on behalf of Freddie Mac and Fannie Mae, respectively. In October 2001, Countrywide Home Loans transferred to Countrywide Servicing all of its rights and obligations relating to the bulk of its non-agency loan servicing portfolio (other than the servicing of home equity lines of credit), including with respect to those mortgage loans (other than home equity lines of credit) formerly serviced by Countrywide Home Loans and securitized by CWMBS, Inc., an affiliate of the Depositor. While Countrywide Home Loans expects to continue to directly service a portion of its loan portfolio, it is expected that the servicing rights for most newly originated Countrywide Home Loans mortgage loans will be transferred to Countrywide Servicing upon sale or securitization of the related mortgage loans. Countrywide Servicing is engaged in the business of servicing mortgage loans and will not originate or acquire loans, an activity that will continue to be performed by Countrywide Home Loans. In addition to acquiring mortgage servicing rights from Countrywide Home Loans, it is expected that Countrywide Servicing will service mortgage loans for non-Countrywide Home Loans affiliated parties as well as subservice mortgage loans on behalf of other master servicers.

In connection with the establishment of Countrywide Servicing, certain employees of Countrywide Home Loans became employees of Countrywide Servicing. Countrywide Servicing has engaged Countrywide Home Loans as a subservicer to perform certain loan servicing activities on its behalf.

Countrywide Servicing is an approved mortgage loan servicer for Fannie Mae, Freddie Mac, Ginnie Mae, HUD and VA and is licensed to service mortgage loans in each state where a license is required. Its loan servicing activities are guaranteed by Countrywide Financial and/or Countrywide Home Loans when required by the owner of the mortgage loans.

[Below is an example of the disclosure to be provided if Countrywide Home Loans, Inc. is the sponsor of the transaction. Similar disclosure complying with the requirements of Item 1104 of Regulation AB will be provided with respect to any other entity that is the sponsor of a transactions.]

Countrywide Home Loans

Countrywide Home Loans is the sponsor for the transaction and also a seller. Countrywide Home Loans is a New York corporation and a direct wholly owned subsidiary of Countrywide Financial Corporation, a Delaware corporation ("Countrywide Financial"). The principal executive offices of Countrywide Home Loans are located at 4500 Park Granada, Calabasas, California 91302. Countrywide Home Loans is engaged primarily in the mortgage banking business, and as part of that business, originates, purchases, sells and services mortgage loans. Countrywide Home Loans originates mortgage loans through a retail branch system and through mortgage loan brokers and correspondents nationwide. Mortgage loans originated by Countrywide Home Loans are principally first-lien, fixed or adjustable rate mortgage loans secured by single-family residences.

Countrywide Home Loans has historically sold substantially all the mortgage loans that it has originated and purchased, generally through securitizations. Countrywide Home Loans does not always sell mortgage loans immediately after origination or acquisition, but may decide to sell certain mortgage loans in later periods as part of its overall management of interest rate risk. Countrywide Home Loans has been involved in the securitization of mortgage loans since 1969 when it was approved as a Federal National Mortgage Association seller/servicer. Countrywide Home Loans reviews the structure of

its securitizations and discusses the structure with the related underwriters.

Except as otherwise indicated, reference in the remainder of this prospectus supplement to "Countrywide Home Loans" should be read to include Countrywide Home Loans and its consolidated subsidiaries, including Countrywide Servicing. Countrywide Home Loans services substantially all of the mortgage loans it originates or acquires. In addition, Countrywide Home Loans has purchased in bulk the rights to service mortgage loans originated by other lenders. Countrywide Home Loans has in the past and may in the future sell to mortgage bankers and other institutions a portion of its portfolio of loan servicing rights. As of September 30, 2005, December 31, 2004, December 31, 2003 and December 31, 2002, Countrywide Home Loans provided servicing for mortgage loans with an aggregate principal balance of approximately \$1,047.623 billion, \$838.322 billion, \$644.855 billion and \$452.405 billion, respectively, substantially all of which were being serviced for unaffiliated persons.

Loan Servicing

The Master Servicer has established standard policies for the servicing and collection of mortgages. Servicing includes, but is not limited to:

- (a) collecting, aggregating and remitting mortgage loan payments;
- (b) accounting for principal and interest;
- (c) holding escrow (impound) funds for payment of taxes and insurance;

S-59

<PAGE>

- (d) making inspections as required of the mortgaged properties;
- (e) preparation of tax related information in connection with the mortgage loans;
- (f) supervision of delinquent mortgage loans;
- (g) loss mitigation efforts;
- (h) foreclosure proceedings and, if applicable, the disposition of mortgaged properties; and
- (i) generally administering the mortgage loans, for which it receives servicing fees.

Billing statements with respect to mortgage loans are mailed monthly by the Master Servicer. The statement details all debits and credits and specifies the payment due. Notice of changes in the applicable loan rate are provided by the Master Servicer to the mortgagor with these statements.

Collection Procedures

When a mortgagor fails to make a payment on a mortgage loan, the Master Servicer attempts to cause the deficiency to be cured by corresponding with the mortgagor. In most cases, deficiencies are cured promptly. Pursuant to the Master Servicer's servicing procedures, the Master Servicer generally mails to the mortgagor a notice of intent to foreclose after the loan becomes 61 days past due (three payments due but not received) and, generally within [59] days thereafter, if the loan remains delinquent, institutes appropriate legal action to foreclose on the mortgaged property. Foreclosure proceedings may be terminated if the delinquency is cured. Mortgage loans to borrowers in bankruptcy proceedings may be restructured in accordance with law and with a

view to maximizing recovery of the loans, including any deficiencies.

Once foreclosure is initiated by the Master Servicer, a foreclosure tracking system is used to monitor the progress of the proceedings. The system includes state specific parameters to monitor whether proceedings are progressing within the time frame typical for the state in which the mortgaged property is located. During the foreclosure proceeding, the Master Servicer determines the amount of the foreclosure bid and whether to liquidate the mortgage loan.

If foreclosed, the mortgaged property is sold at a public or private sale and may be purchased by [Countrywide Home Loans]. After foreclosure, the Master Servicer may liquidate the mortgaged property and charge-off the loan balance which was not recovered through liquidation proceeds.

Servicing and charge-off policies and collection practices with respect to mortgage loans may change over time in accordance with, among other things, the Master Servicer's business judgment, changes in the servicing portfolio and applicable laws and regulations.

Foreclosure, Delinquency and Loss Experience

Historically, a variety of factors, including the appreciation of real estate values, have limited Countrywide Home Loans' loss and delinquency experience on its portfolio of serviced mortgage loans. There can be no assurance that factors beyond the control of Countrywide Home Loans, such as national or local economic conditions or downturns in the real estate markets of its lending areas, will not result in increased rates of delinquencies and foreclosure losses in the future.

A general deterioration of the real estate market in regions where the mortgaged properties are located may result in increases in delinquencies of loans secured by real estate, slower absorption rates of real estate into the market and lower sales prices for real estate. A general weakening of the economy may result in decreases in the financial strength of borrowers and decreases in the value of collateral serving as security for loans. If the real estate market and economy were to decline, Countrywide Home Loans may experience an increase in delinquencies on the loans it services and higher net losses on liquidated loans.

S-60

<PAGE>

The following table summarizes the delinquency, foreclosure and loss experience, respectively, on the dates indicated, of the mortgage loans originated or acquired by Countrywide Home Loans, serviced or master serviced by Countrywide Home Loans and securitized in Alternative Loan Trusts by CWALT, Inc. or by CWMBS, Inc., an affiliate of CWALT, Inc., in transactions that were registered with the Securities and Exchange Commission. The delinquency, foreclosure and loss percentages may be affected by the size and relative lack of seasoning in the servicing portfolio which increased from approximately \$2.247 billion at February 28, 2001, to approximately \$5.083 billion at December 31, 2001, to approximately \$9.862 billion at December 31, 2002, to approximately \$14.733 billion at December 31, 2003, to approximately \$31.063 billion at December 31, 2004, and to approximately \$70.238 billion at September 30, 2005. Accordingly, the information should not be considered as a basis for assessing the likelihood, amount or severity of delinquency or losses on the mortgage loans and no assurances can be given that the foreclosure, delinquency and loss experience presented in the following table will be indicative of the actual experience on the mortgage loans (totals may

not add due to rounding):

Servicing Compensation and Payment of Expenses

The Master Servicer will be paid a monthly fee (the "Servicing Fee") from interest collected with respect to each Mortgage Loan (as well as from any liquidation proceeds that are applied to accrued and unpaid interest or Subsequent Recoveries) equal to one-twelfth of the Stated Principal Balance thereof multiplied by the Servicing Fee Rate. The "Servicing Fee Rate" for each Mortgage Loan will equal []% per annum. The amount of the monthly Servicing Fee is subject to adjustment with respect to Mortgage Loans that are prepaid in full, as described in this prospectus supplement under "Adjustment to Servicing Fee in Connection with Certain Prepaid Mortgage Loans." [The Master Servicer is also entitled to receive, as additional servicing compensation, amounts in respect of interest paid on Principal Prepayments received during that portion of a Prepayment Period from the related Due Date to the end of the Prepayment Period ("Prepayment Interest Excess"), all late payment fees, assumption fees and other similar charges [(excluding prepayment charges)] and all investment income earned on amounts

on deposit in the Certificate Account and Distribution Account.] The Master Servicer is obligated to pay certain

S-61

<PAGE>

ongoing expenses associated with the Mortgage Loans and incurred by the Trustee [and Co-Trustee] in connection with their respective responsibilities under the Pooling and Servicing Agreement.

Adjustment to Servicing Fee in Connection With Certain Prepaid Mortgage Loans

When a borrower prepays all or a portion of a Mortgage Loan between scheduled monthly payment dates ("Due Dates"), the borrower pays interest on the amount prepaid only to the date of prepayment. Principal Prepayments which are received during that portion of the Prepayment Period from the related Due Date in the Prepayment Period to the end of the Prepayment Period reduce the Scheduled Payment of interest for the following Due Date but are included in a distribution that occurs on or prior to the distribution of the Scheduled Payment, and accordingly no shortfall in interest otherwise distributable to holders of the Certificates results. Conversely, Principal Prepayments received from that portion of the Prepayment Period from the beginning of the Prepayment Period to related Due Date in the Prepayment Period reduce the Scheduled Payment of interest for the Due Date and are included in a distribution that occurs on or after the distribution of the Scheduled Payment, and accordingly an interest shortfall (a "Prepayment Interest Shortfall") could result. In order to mitigate the effect of any Prepayment Interest Shortfall on interest distributions to holders of the Certificates on any Distribution Date, one-half of the amount of the Servicing Fee otherwise payable to the Master Servicer for the month will, to the extent of the Prepayment Interest Shortfall, be deposited by the Master Servicer in the Certificate Account for distribution to holders of the Certificates entitled thereto on the Distribution Date. The amount of this deposit by the Master Servicer is referred to as "Compensating Interest" and will be reflected in the distributions to holders of the Certificates entitled thereto made on the Distribution Date on which the Principal Prepayments received would be distributed. Any shortfall in interest distributions to the [Class AF-5B] certificateholders resulting from Prepayment Interest Shortfalls will not be covered by the [Class AF-5B] Policy.

Advances

Subject to the following limitations, on the Business Day prior to each Distribution Date, the Master Servicer will be required to advance (an "Advance") from its own funds, or funds in the Certificate Account that are not required to be distributed on the Distribution Date, on the Business Day immediately preceding the Distribution Date (a "Master Servicer Advance Date"), the sum of:

- o an amount equal to the aggregate of payments of principal and interest on the Mortgage Loans (with the Mortgage Rate adjusted to a rate equal to the Mortgage Rate minus the Servicing Fee Rate (as so adjusted, the "Net Mortgage Rate")) that were due on the related Due Date and delinquent on the related Determination Date; and
- o an amount equivalent to interest (adjusted to the Net Mortgage Rate) deemed due on each Mortgage Loan (i) as to which the related

Mortgaged Property has been acquired by the Master Servicer through foreclosure or deed-in-lieu of foreclosure in connection with a defaulted Mortgage Loan ("REO Property"), which is calculated after taking into account any rental income from such Mortgaged Property or (ii) as to which the related Mortgaged Property has been liquidated but as to that Mortgage Loan a Final Recovery Determination has not been made.

Advances are intended to maintain a regular flow of scheduled interest and principal payments on the Certificates rather than to guarantee or insure against losses. The Master Servicer is obligated to make Advances to the extent that the Advances are, in its judgment, reasonably recoverable from future payments and collections or insurance payments or proceeds of liquidation of the related Mortgage Loan. If the Master Servicer determines on any Determination Date to make an Advance, the Advance will be included with the distribution to holders of the Certificates on the related Distribution Date. Any failure by the Master Servicer to make an Advance as required under the Pooling and Servicing Agreement will constitute an event of default thereunder, in which case the Trustee, as successor master servicer, or any other entity that is appointed as successor master servicer, will be obligated to make Advances in accordance with the terms of the Pooling and Servicing Agreement. An Advance will be reimbursed from the payments on the Mortgage Loan with respect to which the Advance was made. However, if an Advance is determined to be nonrecoverable and the Master Servicer delivers an officer's certificate to the Trustee indicating that the Advance is nonrecoverable, the Master Servicer will be entitled to withdraw from the Certificate

S-62

<PAGE>

Account an amount equal to the nonrecoverable Advance. Reimbursement for Advances and nonrecoverable Advances will be made prior to distributions on the Certificates.

THE ISSUING ENTITY

In connection with the issuance of the Certificates, the Depositor has formed Alternative Loan Trust 200[]-[], a [common law] trust created under the laws of the State of [New York] pursuant to the Pooling and Servicing Agreement. Alternative Loan Trust 200[]-[] is referred to in this prospectus supplement as the "issuing entity" and is referred to in the prospectus as the "Trust" or the "Trust Fund." The Trustee serves as trustee of the issuing entity and acts on behalf of the issuing entity as the issuing entity does not have any directors, officers or employees. The fiscal year end of the issuing entity is [December 31].

The issuing entity's activities are limited to the transactions and activities entered into in connection with the securitization described in this prospectus supplement, and except for those activities, the issuing entity is not authorized and has no power to borrow money or issue debt, merge with another entity, reorganize, liquidate or sell assets or engage in any business or activities. Consequently, the issuing entity is not permitted to hold any assets, or incur any liabilities, other than those described in this prospectus supplement. Since the issuing entity is created pursuant to the Pooling and Servicing Agreement, the issuing entity and its permissible activities can only be amended or modified by amending the Pooling and Servicing Agreement.

Since the issuing entity is a common law trust, it may not be

eligible for relief under the federal bankruptcy laws, unless it can be characterized as a "business trust" for purposes of the federal bankruptcy laws. Bankruptcy courts look at various considerations in making this determination, so it is not possible to predict with any certainty whether or not the issuing entity would be characterized as a "business trust."

STATIC POOL DATA

Certain static pool data with respect to the delinquency, cumulative loss and prepayment data for [Countrywide Home Loans] is available online at [.com]. This static pool data is not deemed part of the prospectus or the registration statement of which the prospectus is a part to the extent that the static pool data relates to:

- o prior securitized pools of [Countrywide Home Loans] that do not include the Mortgage Loans and that were established before January 1, 2006; or
- o in the case of information regarding the Mortgage Loans, information about the Mortgage Loans for periods before January 1, 2006.

Beneficial interests in the Book-Entry Certificates may be held in minimum denominations representing Certificate Principal Balances of \$[20,000] and integral multiples of \$[1,000] in excess thereof. Except as set forth under "Description of the Securities--Book-Entry Registration of the Securities" in the prospectus, no person acquiring a beneficial ownership interest in a Book-Entry Certificate (each, a "beneficial owner") will be entitled to receive a physical certificate representing the person's beneficial ownership interest in the Book-Entry Certificate (a "Definitive Certificate"). Unless and until Definitive Certificates are issued, it is anticipated that the only certificateholder of the Book-Entry Certificates will be Cede & Co., as nominee of DTC. Certificate Owners will not be certificateholders as that term is used in the Pooling and Servicing Agreement. Certificate Owners are only permitted to exercise their rights indirectly through the participating organizations that utilize the services of DTC, including securities brokers and dealers, banks and trust companies and clearing corporations and certain other organizations ("Participants") and DTC. See "Description of the Securities--Book-Entry Registration of the Securities" in the prospectus.

Glossary of Terms

The following terms have the meanings shown below to help describe the cash flow on the Certificates. The definitions are organized based on the context in which they are most frequently used. However, certain definitions may be used in multiple contexts.

General Definitions.

"Adjusted Net Mortgage Rate" with respect to each Mortgage Loan means the Mortgage Rate less the related Expense Fee Rate.

"Business Day" is any day other than:

(1) A Saturday or Sunday or

(2) A day on which the [Class AF-5B] Insurer or banking institutions in the state of New York or California are required or authorized by law to be closed.

"Certificate Principal Balance" means for any class of Certificates (other than the Class CF and Class CV Certificates), the aggregate outstanding principal balance of all Certificates of the class, less:

(1) all amounts previously distributed to holders of Certificates of that class as scheduled and unscheduled payments of principal, including in the case of the [Class AF-5B] Certificates, any payments of principal under the [Class AF-5B] Policy; and

(2) in the case of a class of Subordinate Certificates and the [Class 2-AV-2] Certificates, the Applied Realized Loss Amounts allocated to the class, however, if Applied Realized Loss Amounts have been allocated to the Certificate Principal Balance of any class of Subordinate Certificates or the [Class 2-AV-2] Certificates, the Certificate Principal Balance thereof will be increased on each

Distribution Date after the allocation of Applied Realized Loss Amounts, sequentially by class in the order of payment priority, by the amount of Subsequent Recoveries for the related Loan Group or Loan Groups, collected during the related Due Period (if any) (but not by more than the amount of the Unpaid Realized Loss Amount for the class).

After any allocation of amounts in respect of Subsequent Recoveries to the Certificate Principal Balance of a class of Subordinate Certificates or the [Class 2-AV-2] Certificates, a corresponding decrease will be made on the Distribution Date to the Unpaid Realized Loss Amount for that class or classes. Although Subsequent Recoveries, if any, will be allocated to increase the Certificate Principal Balance of a class of Subordinate Certificates and the [Class 2-AV-2] Certificates, the Subsequent Recoveries will be included in the applicable Principal Remittance Amount and distributed in the priority set forth below under "--Distributions--Distributions of Principal." Therefore these Subsequent Recoveries may not be used to make any principal payments on the class or classes of Certificates for which the Certificate Principal Balances have been increased by allocation of Subsequent Recoveries. Additionally, holders of these Certificates will not be entitled to any payment in respect of interest that would have accrued on the amount of the increase in Certificate Principal Balance for any Accrual Period preceding the Distribution Date on which the increase occurs.

Exclusively for the purpose of determining any subrogation rights of the [Class AF-5B] Insurer under the Pooling and Servicing Agreement, the "Certificate Principal Balance" of the [Class AF-5B] Certificates is not reduced by the amount of any payments made by the [Class AF-5B] Insurer in respect of principal on the [Class AF-5B] Certificates under the [Class AF-5B] Policy, except to the extent that the payment has been reimbursed to the [Class AF-5B] Insurer pursuant to the provisions of the Pooling and Servicing Agreement.

"Distribution Date" means the []th day of each month, or if the []th day is not a Business Day, on the first Business Day thereafter, commencing in [] 200[].

"Final Recovery Determination" means a determination by the Master Servicer that it has received all proceeds it expects to receive with respect to the liquidation of a Mortgage Loan.

"Insurance Proceeds" means all proceeds of any insurance policy received prior to a Final Recovery Determination (to the extent that the

"Liquidation Proceeds" means any Insurance Proceeds and all other net proceeds received prior to a Final Recovery Determination in connection with the partial or complete liquidation of a Mortgage Loan (whether through trustee's sale, foreclosure sale or otherwise) or in connection with any condemnation or partial release of the related Mortgaged Property, together with the net proceeds received prior to a Final Recovery Determination with respect to any Mortgaged Property acquired by the Master Servicer by foreclosure or deed in lieu of foreclosure in connection with a defaulted Mortgage Loan (other than the amount of the net proceeds representing Excess Proceeds and net of reimbursable expenses).

"Percentage Interest" with respect to any Certificate, means the percentage derived by dividing the denomination of the Certificate by the aggregate denominations of all Certificates of the applicable class.

"Record Date" means:

(1) in the case of the [Adjustable Rate Certificates], the [Business Day immediately preceding the Distribution Date, unless the Adjustable-Rate Certificates are no longer book-entry certificates, in which case the Record Date will be the last Business Day of the month preceding the month of the Distribution Date], and

Distributions

General. Distributions on the Certificates will be made by the Trustee on each Distribution Date to the persons in whose names the Certificates are registered at the close of business on the Record Date.

Distributions will be made by check mailed to the address of the person entitled thereto as it appears on the Certificate Register or, in the case of any certificateholder that holds 100% of a class of Certificates or who holds a class of Certificates with an aggregate initial Certificate Principal Balance of \$1,000,000 or more and that has so notified the Trustee in writing in accordance with the Pooling and Servicing Agreement, by wire transfer in immediately available funds to the account of the certificateholder at a bank or other depository institution having appropriate wire transfer facilities; provided, however, that the final distribution in retirement of the Certificates will be made only upon presentation and surrender of the Certificates at the Corporate Trust Office of the Trustee. On each Distribution Date, a holder of a Certificate will receive its Percentage

Interest of the amounts required to be distributed with respect to the applicable class of Certificates.

[On each Distribution Date, the Trustee will withdraw all prepayment charges in the Distribution Account and distribute them (i) in the case of prepayment charges from the Mortgage Loans in Loan Group [1], to the Class PF Certificates, and (ii) in the case of prepayment charges from the Mortgage Loans in Loan Group [2] and Loan Group [3], to the Class PV Certificates.]

For each class of Subordinate Certificates, any Interest Carry Forward Amount will be payable only from excess cashflow (if any) as and to the extent described under "-- Overcollateralization Provisions."

All calculations of interest on the [Adjustable Rate Certificates] will be made on the basis of [a 360-day year and the actual number of days elapsed in the applicable Accrual Period]. All calculations of interest on the [Fixed Rate Certificates] will be made on the basis of [a 360-day year assumed to consist of twelve 30-day months].

The Pass-Through Rates for the [Adjustable Rate Certificates] are variable rates that may change from Distribution Date to Distribution Date. Additionally, the Pass-Through Rate for each of the [Adjustable Rate Certificates] and the [Class AF-5] Certificates are subject to increase after the Optional Termination Date. On each Distribution Date, the Pass-Through Rate for each class of interest-bearing Certificates will be subject to the applicable Net Rate Cap. See the related definitions in "-- Glossary of Terms -- Definitions related to Interest Calculations and Distributions" for a more detailed understanding as to how the Net Rate Cap is calculated, and applied to the Pass-Through Rate.

If on any Distribution Date, the Pass-Through Rate for a class of interest-bearing Certificates is based on the applicable Net Rate Cap, each holder of the applicable Certificates will be entitled to receive the resulting shortfall only from remaining excess cashflow (if any) to the extent described in this prospectus supplement under "-- Overcollateralization Provisions", and in the case of the [Adjustable Rate Certificates], from payments (if any) allocated to the issuing entity in respect of the applicable Corridor Contract.
